April 24, 2014

To whom it may concern:

My first encounter with Store Design and Fixturing came in 2002. We were moving from a downtown location to a strip center in a better part of town. I showed my drawing to Herb at a trade show in Las Vegas and he said come back tomorrow and I will have an idea for your space. When I stopped back, the drawing concept blew me away. The shapes and linear feet that were in the design allowed for much more showcase room without crowding the showroom. We ordered the cases from him and they looked great. In 2013 we were able to expand into the adjoining space and one of the first things we did was call Herb. He came to our store again and looked at the additional space and drew up a very complimentary design to the original design. We updated the lighting as well. It was a seamless transition to the new cases. Herb was very easy to work with and was with us all the way in helping design the storage and function of the cases as well as the design plan.

Sincerely,

Maryann Marshall
